Finished For You

A customised service tailored to meet your unique requirements

The human body is host to trillions of microorganisms collectively known as the human microbiota. It is increasingly recognized that psychological, environmental, and physical factors may have variable effects on microbiota composition and function^[1]. Life's stressors and challenges can therefore significantly impact our microbiota. That's why we've meticulously crafted specialized probiotic blends for various conditions, supported by scientific research. Our strains work effectively to promote enhanced general wellbeing by rebalancing and maintaining a healthy bacterial balance across the body's multiple microbiomes.

Sacco System is now offering the Finished for You service. This service is designed to assist our clients in the formulation and production of finished products in various formats. Whether you need capsules, powders, or liquids, our team of experts will take care of every step, ensuring that your products meet the highest standards of quality and efficacy to satisfy your clients.

Finished for You advantages:

Rapid Market Entry

The fastest way to get into the supplement market, ensuring an immediate launch.

Innovation

Offering service reliability, research and innovation, knowledge sharing, flexibility and customization.

Efficiency

Sacco System takes the manufacturing supply chain and regulatory concerns off your hands.

Quality

High quality Probiotic formulations developed and backed by gold standard scientific evidence, enhanced with innovative ingredients to promote a synbiotic effect.

Natural and hypoallergenic

Gluten and lactose free, GMO Free and vegan friendly catering to health-conscious consumers.

Stability

24-month Shelf-life, without refrigeration, provided the product is kept in a cool, dry place out of direct sunlight.

Advanced Multi-Action Formulations

Expand your brand with our comprehensive range of finished synbiotic products, offering a full suite of services.

- Innovative and custom-made formulations
- Compatibility studies between different ingredients
- Evaluation of the synergistic effect of several active ingredients
- Control of the stability profile at different climatic zones
- Prototype production
- In-vitro, in-vivo or clinical studies
- Regulatory and marketing support

Available formats

Hard swallowable capsule

Swallowable, Chewable and Orodispersible tablet

Orosoluble powder

Pellets in capsule

Cosmetics

Hydrodispersible powder

Liquid in 3-phase vial

Oil drops

Liquid caps and cap-in-cap

Gummies

Available packaging

Active vial

Blister

Stick and Sachet

Vials

Restore intestinal microflora

4 strains mix - 4 B/dose + Biotin and Chromium

(*B.animalis* ssp *lactis* BLC1, *L.acidophilus* LA1, *L.paracasei* IMC 502®, *L.rhamnosus* IMC 501®)

Rigid capsule

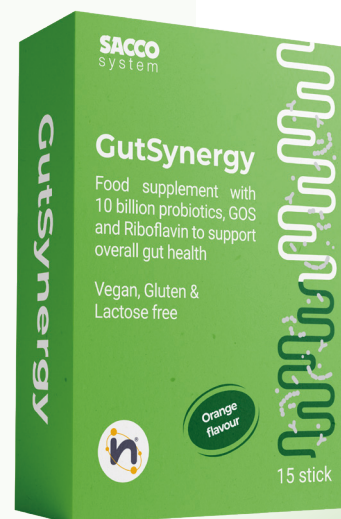

Maintain gut microbiota

9 strains mix - 10 B/dose
+ Prebiotic fibers and Riboflavin

(*B.animalis* ssp *lactis* BLC1, *B.breve* Bbr8, *L.rhamnosus* GG, *L.plantarum* 14D, *L.acidophilus* LA1, *L.paracasei* IMC 502®, *L.reuteri* LR92, *L.rhamnosus* IMC 501®, *S.thermophilus* Z57)

Orosoluble or hydrodispersible powder in stick

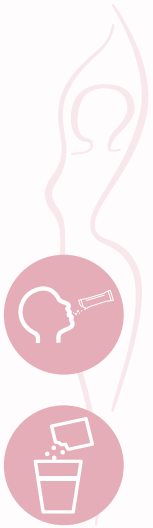

Improving relaxation and stress control

5 strains mix - 20 B/dose
+ vitamins B5, B6, Biotin and Iodine

(*B.lactis* BLC1, *B.longum* SP 54, *L.brevis* SP 48, *L.plantarum* P8, *L.rhamnosus* CRL 1505®)

Rigid Capsule

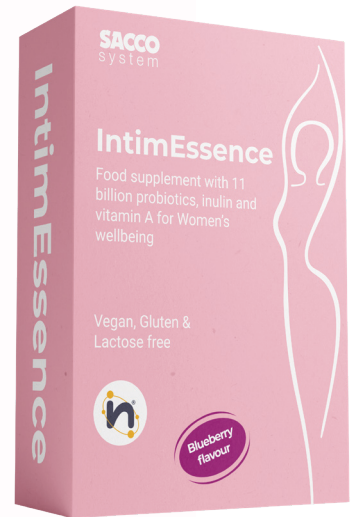

Restore and maintain vaginal health

2 strains mix - 11 B/dose
+ Prebiotic fibers and Biotin

(*L.rhamnosus* ProbioEtna CA15®, *L.crispatus* SP 28)

Orosoluble or hydrodispersible powder in stick

Protect moms and new born babies during pregnancy

3 strains mix - 6 B/dose
+ Iron and folic acid

(*L.rhamnosus* IMC 501®, *L.paracasei* IMC 502®,
L.reuteri LR92)

Rigid Capsule

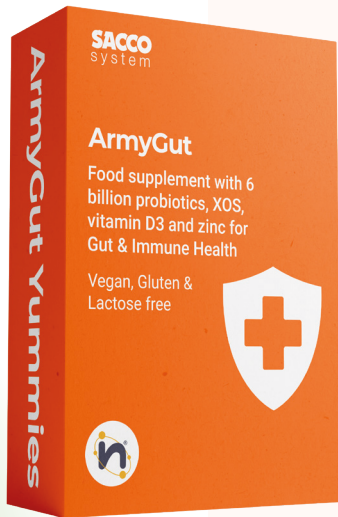

Caries prevention

L. rhamnosus SP1 1,5 B/dose
+ Vitamin D3

Chewable tablet

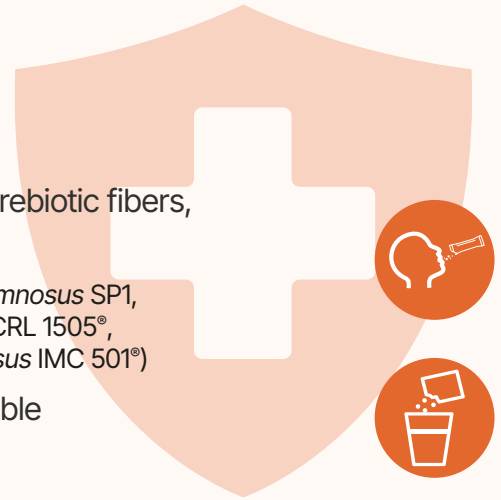

Reinforce body defence

6 strains mix - 6B/dose + prebiotic fibers,
Vitamin D3 and Zinc

(*B.animalis* ssp *lactis* BLC1, *L.rhamnosus* SP1,
L.acidophilus LA1, *L.rhamnosus* CRL 1505®,
L.paracasei IMC 502®, *L.rhamnosus* IMC 501®)

Orosoluble or hydrodispersible
powder in stick

Beauty from within

L. rhamnosus SP1 - 3B/dose +
Collagen and Vitamin A

3-phase vial

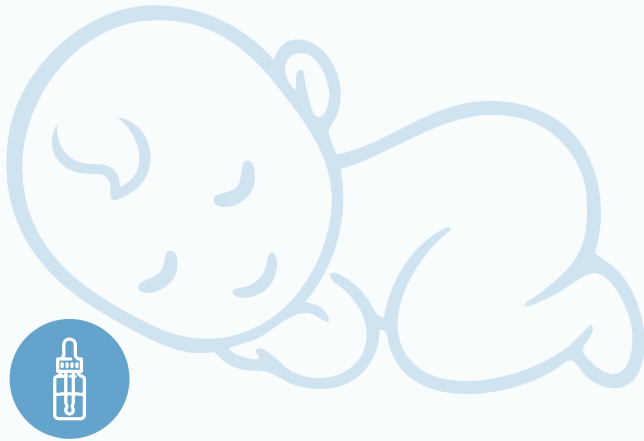

Weight management

15 B/dose + Zinc, Chromium and Vitamin B6

Company

Our heritage in lactic acid bacteria (LAB) dates back to 1948, when Dr. Leo Vesely founded Centro Sperimentale del Latte, a company of the Sacco System Group and a pioneer in the study of bacteria for human health and child nutrition.

Today Sacco System is the international biotech hub for food, nutraceutical, and pharmaceutical industries. Operating in over 110 countries worldwide, we provide our expertise on probiotic products development and offer science based proprietary strains and customized blends, supporting consumer needs.

Our innovative approach covers production, research and development in nutraceutical and pharmaceutical fields, having available three pilot plants, cutting edge technologies and two facilities GMP Pharmaceutical certified. An expertise extends beyond LAB, following the evolving demands of the market. This includes the development, process validation and commercial production of probiotics, postbiotics, Next-Generation bacteria (obligate aerobes and anaerobes strains) and biotherapeutics (BPs).

Quality

Our quality system is extensive and as a confirmation of our strong commitment to quality, Sacco System has achieved the main certifications over the years.
